

Message from the Chief Editor (PJU)

Dear Colleagues and Contributors

It is with great honor and pride that I extend my heartfelt greetings to all readers and participants on the auspicious occasion of **UROCON 2025 – The Silver Jubilee Conference** of the Pakistan Association of Urological Surgeons (PAUS). This milestone marks twenty-five years of excellence, innovation, and unwavering commitment to advancing urological science and practice in Pakistan. The **Pakistan Journal of Urology (PJU)** has grown alongside this remarkable journey, serving as a beacon for scientific exchange, clinical insight, and academic collaboration. Through its pages, we continue to promote evidence-based practice, ethical research, and innovation that bridges knowledge with patient-centered care. The theme of this year's conference — *“Mastering Urology in the Digital Age: AI, Innovation and Skill Development”* — perfectly reflects the evolving landscape of modern medicine. As we enter an era shaped by artificial intelligence, robotics, and data-driven precision, it becomes imperative to balance technology with the art of clinical judgment and compassion. The Journal stands committed to highlighting this balance through high-quality publications that inform and inspire. I take this opportunity to congratulate the **Organizing and Scientific Committees** of UROCON 2025 for their dedication in curating a world-class academic program. I also express my appreciation to all authors, reviewers, and editorial members of PJU for their invaluable contributions that sustain the integrity and impact of our journal. May this Silver Jubilee celebration serve not only as a reflection of our shared legacy but also as a promise for the future — one where innovation, education, and collaboration continue to define the spirit of Pakistani urology.

With warm regards and best wishes

Prof. Dr. Liaqat Ali

Professor of Urology, Institute of Kidney Diseases
Hayatabad Medical Complex, Khyber Girls Medical College, Peshawar
